EASTER by Nature

2025

THE THEME

La Maison du Chocolat invites you on a delicious adventure, as close as possible to nature.

At a bend of a field where flowers burst with color, a game of hide-and-seek is revealed where each egg is hidden in lush nature, among the delicate petals and verdant foliage.

Nicolas Cloiseau and his team have imagined this collection as a tribute to the beauty of nature, simplicity and shared sweetness: Easter by Nature.

EASTER ARTISTIC DAISY EGG

Half an egg of dark chocolate lined with milk chocolate and roasted hazelnut chips, closed with a slab of white velvet decorated with daisies covered with a layer of dark chocolate.

Garnished with 17 dark chocolate treats with toasted almonds, caramelized almond, and vanilla praliné.

An egg with modern curves, simplicity and grained facets.

The mold has multiple layers of chocolates. Worked in half-shells, each layer must delicately drain and crystalize before being covered with another. The work of patience and craftsmanship by our chocolatiers guarantees the egg incomparable rigidity and finesse. Includes 8 almond caramel vanilla praliné treats.

DECADENT EGG

An exceptional egg that symbolizes the elegance of La Maison du Chocolat created for the theme Easter by Nature.

In the milk version, we bite into the milk chocolate shell lined with melting blond chocolate sprinkled with irresistible chips of caramelized pecan nuts.

On the cocoa side, we fall for a dark chocolate, masked with milk and buried in pieces of roasted hazelnuts.

Includes 8 praliné shells.
